International Conference and Business Meetings dedicated to the Space Industry

May 20-22, 2024 | Venice, Italy

Space Meetings Veneto

Space Meetings Veneto is the new global business event that brings together professionals from across various industries to discuss the latest developments in the world of satellite applications, innovative technologies, supply chain and investment.

THIS EDITION WILL COVER 4 TOPICS

- 1 Investing in space and aeronautics
- 2 Space supply chain in a new space economy
- 3 Space applications for agriculture, wine and environment monitoring
- 4 Sport and physical activity related to Space

4 GOOD REASONS TO ATTEND

1. International participation

BENEFIT from the presence of the largest national and European contractors in the space sector

2. B2B Meetings

DEVELOP your network and connect with key players: space agencies, large companies, SMEs, Start-Ups through a series of individually tailored and pre-arranged B2B meetings

3. Technology

GET access to the latest technological innovations and breakthrough approaches responding to current and future challenges and opportunities in aerospace

4. Conferences

PARTICIPATE in high profile keynotes and panel discussions with industry stakeholders and experts from research centers and academia

WHO SHOULD ATTEND ?

- Hedge funds
- Venture capital
- R&D Centers
- Space Agencies
- International organizations
- Promotion agencies
- Academia
- Industry OEMs
- Tier 1 and Tier 2 suppliers
- Contractors
- Satellite downstream services providers
- Engineering
- Procurement
- Startups
- Data analysts
- Software providers
- Vineyard managers
- Wine producers
- RTU systems providers

Investment Forum for Space & Aeronautics

Discover the market and learn about investment opportunities fostering the development of the aeronautics and space sectors.

KEY TOPICS

- Procurement trends and developments in the aerospace market
- Democratization of the space sector
- Opportunities for new market entrants
- Emerging market opportunities
- Green economy
- Cross-industry investment
- Business models and commercial partnerships
- Innovative purchasing platforms and technologies

Space & UAV Suppliers Summit

The Space Suppliers Summit is a two-day business convention dedicated to the space supply chain and satellite industry that features a high-level conference, a showcase, technical workshops, and pre-arranged one-to-one meetings.

KEYTOPICS

- Advanced manufacturing
- Data-driven manufacturing & advanced analytics
- Supply chain and procurement strategies
- Space 3D Printing
- 4.0 industries and green manufacturing
- Launch systems

Space Wine & Agritech Expo

This is a one-day event featuring a conference program and one-to-one meetings for professionals involved in space applications, innovative technologies, data for the wine industry, and the climate monitoring sector.

KEY TOPICS

Space applications for vineyard and agricultural management

- Precision viticulture
- Remote monitoring techniques (GPS, remote sensing, satellite, UAV..)
- Remote-sensing data & operational water management
- Data for cultivating vines
- Control and regulation

Advanced vineyard management technology

- Big Data and AI
- Smart Warehouses
- Variable Rate Technology (VRT)
- Automation and robotics
- Drones and UAVs
- IoT and sensors
- Distributed ledger technology

Space data for climate change

- Satellite weather data
- Mountains monitoring
- Satellite data for lagoons
- LEO constellations
- Remote sensing technology
- Micro-data centers for new satellite design
- Space applications

Sport & Space

Veneto will be the European Region of Sport 2024. The Space Meetings Veneto will be also a unique chance to speak about physical activity and Space:

KEY TOPICS

- Nutrition
- Well-being
- Psychophysical wellness
- Psychology and Cognitive Science
- New Materials and tools
- Werable textile
- Telemetry and remote control
- Medicine
