International Conference and Business Meetings dedicated to the Space Industry

May 11-13, 2026 | Venice, Italy

Space Meetings Veneto

Space Meetings Veneto is the new global business event that brings together professionals from across various industries to discuss the latest developments in the Space Economy, innovative technologies, supply chain and investment.

THIS EDITION WILL COVER 4 TOPICS

- 1 Investing in space and aeronautics
- 2 Space supply chain in a new space economy
- 3 Improving lives and reducing inequalities with space technologies
- 4 Space applications for agriculture and environment monitoring

4 GOOD REASONS TO ATTEND

1. International participation

BENEFIT from the presence of the largest national and international contractors in the space sector

2. B2B Meetings

DEVELOP your network and connect with key players: space agencies, large companies, SMEs, Start-Ups through a series of individually tailored and pre-arranged B2B meetings

3. Technology

GET access to the latest technological innovations and breakthrough approaches responding to current and future challenges and opportunities in aerospace

4. Conferences

PARTICIPATE in high profile keynotes and panel discussions with industry stakeholders and experts from research centers and academia

WHO SHOULD ATTEND ?

- Hedge funds
- Venture capital
- R&D Centers
- Space Agencies
- International organizations
- Promotion agencies
- Academia
- Industry OEMs
- Tier 1 and Tier 2 suppliers
- Contractors
- Satellite downstream services providers
- Engineering
- Procurement
- Startups
- Data analysts
- Software providers
- Vineyard managers
- Wine producers
- RTU systems providers

Investment Forum for Space & Aeronautics

Discover the market and learn about investment opportunities fostering the development of the aeronautics and space sectors.

KEY TOPICS

- Procurement trends and developments in the aerospace market
- Democratization of the space sector
- Opportunities for new market entrants
- Emerging market opportunities
- Green economy
- Cross-industry investment
- Business models and commercial partnerships
- Innovative purchasing platforms and technologies

Space & UAV Suppliers Summit

The Space Suppliers Summit is a two-day business convention dedicated to the space supply chain that features a high-level conference, a showcase, technical workshops, and pre-arranged one-to-one meetings.

KEY TOPICS

- Space Industry Growth Opportunities
- New Space Launch
- Cubesat & Nanosat Supply Chains
- Promoting a More Sustainable Space Ecosystem
- Space & AI
- Digital Transformation Transforming Access to Space
- Satellite Navigation and Communications
- Growing the Lunar Economy
- Data-Driven Manufacturing
- Space Quantum Communication
- In-Space Manufacturing & Operations
- Cybersecurity for the Space Sector

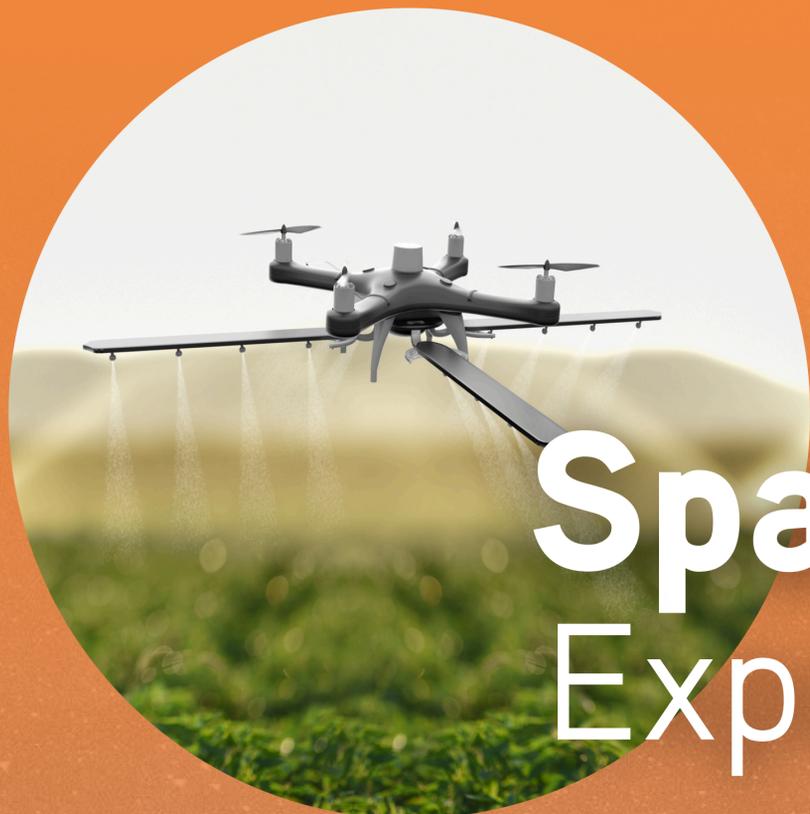

Space & Society

Explore space as a tool to support social inclusion, reduce territorial inequalities, and improve the quality of life for elderly people, women, youth, and vulnerable groups. Space technologies and satellite data can greatly contribute to citizen wellbeing and to the development of new services for the benefit of civil society.

KEY TOPICS

- Safe & Smart Communities
- Ageing Society
- Social Inclusion
- Mental & physical Wellbeing
- Innovative Welfare Services
- Social Sustainability
- Prevent Youth Distress

Space Food-Agritech Expo

A one-day event dedicated to professionals involved in space applications, innovative technologies, and climate monitoring. Discover how collaboration between the space and agritech sectors can generate new market opportunities, applications and services for the benefit of people, industry and the environment.

KEY TOPICS

- Remote monitoring techniques (GPS, remote sensing, satellite, UAV..)
- Remote-sensing data & operational water management
- Food production and resource optimization
- LEO constellations
- New satellite design
- Big Data and AI
- Variable Rate Technology (VRT)
- Automation and robotics
- Drones and UAVs
- IoT and sensors
- Satellite weather data
- Climate monitoring
- Climate change & environmental safety
- Territorial water management
